

AUSTRALIA'S POPULATION EXPLOSION

What does it mean for climate and liveability in Ballarat?

Mark O'Connor
author of
Overloading Australia

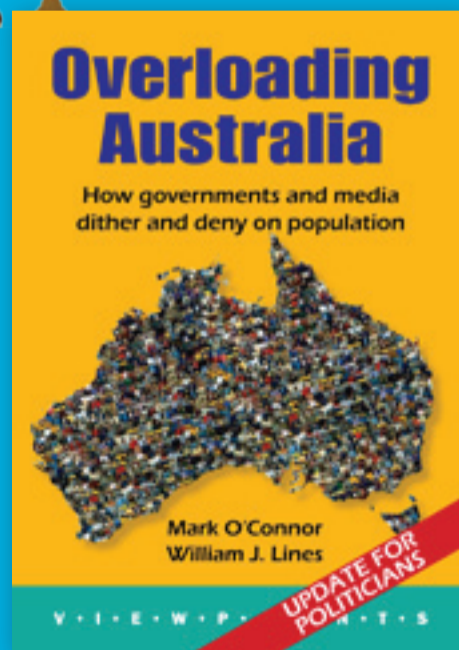

Q&A TIME

MARK O'CONNOR WILL DISCUSS ISSUES SUCH AS:

- Why is our population growing faster than third world countries?
- How will population affect biodiversity, water and food?
- Is population growth essential to maintaining a strong economy?
- How do we counterbalance the 28,000 tonnes of CO² emissions produced by the 1,100 people added to Ballarat's population each year?

Purchase Mark's book *Overloading Australia*. Tea & Coffee provided.
