

# Simple steps to Solar Electricity!

Hmm... free sustainable electricity from the sun? Yes please!

Submit a completed BREAZE Solar Electricity Installation Questionnaire.

Download a copy of the Questionnaire from <http://www.breaze.org.au/pv>  
or collect one Monday to Thursday from the BREAZE Office at 2 East St South, Bakery Hill (Ballarat)

BREAZE contacts householder to arrange property appraisal by installer, followed by a detailed quotation from BREAZE.

You accept, sign and return quotation form, pay required amount and notify BREAZE. Receipt is issued. Your system will be delivered within one month.

Installer arranges installation date with you (approx 1-2 weeks from delivery).

Upon installation, you sign Powercor's "Solar Connection Form" and paperwork for the assignment of RECs (STCs) to BREAZE.

Electrical safety inspection is arranged by installer and the Certificate of Electrical Safety (CES) is issued within one week. Installer submits an Electrical Work Request (EWR) and a copy of the CES and your signed "Solar Connection Form" to your Electricity Retailer.

Electricity Retailer contacts you to confirm your new solar electricity tariff. Opportunity to sign up for Transitional Feed-in Tariff (TFIT). Contact BREAZE if you need any assistance!

Electricity Retailer arranges for Powercor to swap/reconfigure your meter.

Watch contentedly as your smart meter displays clean energy feeding into the grid!

**Would you like more information?** Contact the BREAZE solar team.
